Ms. Yingzhi (Lisa) Tang, Boqii's Co-Founder, Co-CEO and CFO commented: "We had another strong quarter, generating solid operational and financial results. Total revenues grew 23.2% year over year to RMB312.9 million. Adjusted net loss improved significantly from RMB60.8 million in the same quarter of last fiscal year to RMB30.5 million. Notably, during the quarter we considerably improved our operating efficiency, manifested in lower fulfillment cost and reduced inventory turnover days. As a result, our adjusted net loss decreased by 49.8% year-on-year to RMB30.5 million. These results demonstrated our strong execution and potential to translate promising topline growth to profitability. Looking ahead, we will continue to drive rapid growth by expanding user reach and providing all-round user care. This will deliver differentiated growth by attracting high value customers in a large growing addressable market, thus further consolidating our position as an industry leader."

^[1]EBITDA refers to net loss excluding income tax expenses, interest expense, interest income, depreciation and amortization expenses, but including all the professional expenses in relation to initial public offering. EBITDA is a Non-GAAP financial measurement. Please refer to "Non-GAAP financial measurement".

^[2]GMV refers to gross merchandise volume, which is the total value of confirmed orders placed with us and sold through distribution model or drop shipping model where we act as a principal in the transaction regardless of whether the products are delivered or returned, calculated based on the listed prices of the ordered products without taking into consideration any discounts. The total GMV amount (i) includes GMV of products sold by Xingmu, (ii) excludes products sold through consignment model and (iii) excludes the value of services offered by us. GMV is subject to future adjustments (such as refunds) and represents only one measure of the Company's performance and should not be relied on as an indicator of our financial results, which depend on a variety of factors.

Fiscal Third Quarter Financial Results

Total revenues were RMB312.9 million (US\$48.0 million), representing an increase of 23.2% from RMB254.1 million in the same quarter of fiscal year 2020. The increase was primarily due to the continued organic growth of our business.

The decrease was mainly due to: (i) the improved utilization of warehouses by adjusting inventory mix; (ii) relocation of warehouses across China to be more cost-efficient; and (iii) lower delivery service prices through renegotiation with third-party delivery service providers.
- **Sales and marketing expenses** were RMB55.1 million, an increase of 53.2% from RMB36.0 million in the same quarter of fiscal year 2020. Non-GAAP Financial Measures

The Company uses non-GAAP financial measures, namely adjusted net loss, EBITDA and EBITDA margin, in evaluating its operating results and for financial and operational decision-making purposes. The Company defines (i) adjusted net loss as net loss excluding fair value change of derivative liabilities and share-based compensation expenses, (ii) EBITDA as net loss excluding income tax expenses, interest expense, interest income, depreciation and amortization expenses, and (iii) EBITDA margin as EBITDA as a percentage of total revenues. The Company believes adjusted net loss, EBITDA and EBITDA margin enhance investors' overall understanding of its financial performance and allow for greater visibility with respect to key metrics used by its management in its financial and operational decision-making.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. As these non-GAAP financial measures have limitations as analytical tools and may not be calculated in the same manner by all companies, they may not be comparable to other similarly titled measures used by other companies. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measures, which should be considered when evaluating the Company's performance. For reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures, please see the section of the accompanying tables titled, "Reconciliation of GAAP and Non-GAAP Results." The Company encourages investors and others to review its financial information in its entirety and not rely on any single financial measure.
